The Floor Track Anchoring System

Manufactured by Adventure Mfg., Oklahoma City, OK

Chain slots surround the treadways for quick anchoring and tie-down options

20" Treadways

Tie-Downs with drive-over bases for fast set-up

Modular design allows for easy installation and movability

Ultra-fast set-up and anchoring saves time and labor

10 TON PULL TOWER

The tower is air/hydraulically controlled, fully portable and locks in place at any position on the outer track for fast, easy, continuous in-line pulling.

Fast Set-up and Easy Installation

(1) Easy to use!

The fastest machine on the market.

(2) Easy to install!

Simply drill locking concrete bolts into the floor.

Takes less than two hours to install.

(3) Easy to buy!
